

CHAPTER 2

Comment Letters

2.1 Overview

Chapter 2 includes copies of mailed letters and faxes, printouts of emails, transcripts of oral comments received at the public comment meetings, and copies of comments received after the public review period ended. All comments are coded and numbered to correspond to the responses provided in Volume 6.

In some cases, comment letters included extensive attachments. All attachments are acknowledged and have been considered during preparation of the responses. If the attachments contain direct comments on the adequacy or accuracy of the Draft EIR, they are included along with the comment letters in Chapter 2 and responses have been prepared. However, in other instances the attachments provide generic information supporting some aspect of an agency or organization's mission (e.g., description of a city's conservation program and activities) and are not directly related to the adequacy or accuracy of the Draft EIR; those materials are not reproduced in this document but are available for review at the SMWD Headquarters. The attachments received with a particular letter are indicated at the end of each comment letter in Chapter 2.
