

2018 BONANZA SPRING STUDY EXPERT LIST

Study Authors

Dr. Miles Kenney: Professional Geologist (PG), former geology lecturer at San Diego State University, Ph.D. Geology (University of Oregon)

Terry Foreman: Professional Geologist (PG), Certified Hydrogeologist (CHG), M.S. Geology (University of Missouri, Columbia)

Site Visit

A panel of 10 geologists, hydrologists, hydrogeologists and engineers toured Bonanza Spring on December 13, 2017 with Miles Kenney, Ph.D. and Terry Foreman to observe physical conditions that support the study conclusions, including:

Dr. John M. Sharp, Jr.: Professional Geologist (PG), Professional Hydrogeologist (PHG), Professional Earth Scientist (PES), David P. Carlton Professor of Geology at the University of Texas at Austin, Representative to the International Association of Hydrogeologists, Ph.D. Hydrogeology (University of Illinois)

Tim Parker: Professional Geologist (PG), Certified Hydrogeologist (CHG), Certified Engineering Geologist (CEG), Director of the Groundwater Resources Association of California, Director of the National Groundwater Coalition, former senior engineering geologist at the California Department of Water Resources, B.S. Geology (University of California, Davis)

Dr. Dennis Williams: Professional Geologist (PG), Certified Hydrogeologist (CHG), Founder and President at GEOSCIENCE, Ph.D. Hydrology (New Mexico Institute of Mining and Technology)

Brian A. Villalobos: Professional Geologist (PG), Certified Hydrogeologist (CHG), Certified Engineering Geologist (CEG), Principal Geohydrologist at GEOSCIENCE, B.S. Geology (California State University, Los Angeles)

Mark Wildermuth: Professional Civil Engineer (PE), President of Wildermuth Environmental, Inc., M.S. Water Resources Engineering (University of California, Los Angeles)

Anthony Brown: Principal Hydrologist at Aquilogic, Inc., M.S. Engineering Hydrology (Imperial College London)

Dr. Charles G. "Chip" Groat: Professor at Louisiana State University, Acting Director of the Louisiana Geological Survey, former Director of the U.S. Geological Survey, Ph.D. Geology (University of Texas at Austin)

Andrew Stone: Executive Director of the American Groundwater Trust, M.S. Hydrology/ Geology (University College, London)

Will Halligan: Professional Geologist (PG), Principal Hydrogeologist at Luhdorff & Scalmanini Consulting Engineers, M.S. Geoscience/Hydrogeology (University of Nevada, Las Vegas)

Dr. Toby Moore: Professional Geologist (PG), Certified Hydrogeologist (CHG), Water Resources Manager and Chief Hydrogeologist for the Golden State Water Company, Vice President of the Southern Branch of the Groundwater Resources Association of California, Director of the California

Groundwater Coalition, Ph.D. Geology (University of California, Los Angeles)

[Dr. Sharp, Dr. Williams, Mr. Parker, Mr. Brown and Mr. Wildermuth peer reviewed the written report and concurred with its findings.]
